

Solution for preventing and managing diarrhea in children and adults

Featuring a patented formula, this comprehensive anti-diarrheal solution is perfect for all ages.

Innovative and powerfully effective

- Postbiotic yeasts fermented in the presence of high zinc concentrations help provide fast relief of symptoms, rehydration and electrolyte balance.
- Treatment can also counteract pathogens and strengthen the gut barrier.
- Potent synergistic formula for enhanced effectiveness
- Surpasses the existing gold-standard probiotic for diarrhoea management IP protected

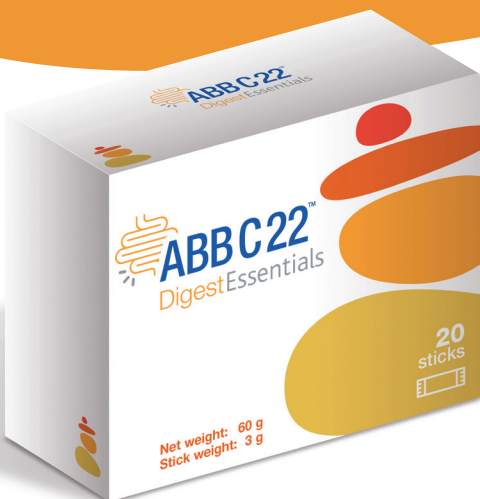

Flexible application

ABB C22™ is versatile, suitable for use on its own or paired with an oral rehydration solution. It's compatible with existing products like Loperamide, Racecadotril, Diosmectite, Antibiotics, and *Bacillus clausii*.

Ready-to-drink for quick rehydration

ABB C22™ is available in ready-to-drink form.
